

Return Merchandise Authorization Form

For all Lunatec V3 mic preamplifiers with serial numbers **V3001- V3496**

This warranty recall has been issued to correct a polarity reversal problem with the AD converters in the Lunatec V3 mic preamplifier. For your return authorization, simply print out this form, fill out all the fields below and include this form in the box with your unit. (Customers outside the US and Canada need to contact their regional Grace Design distributor / dealer for further instructions)

Grace Design will repair your unit and perform a complete set of tests in 7-10 business days and ship it directly back to you. As per our warranty, we pay for return ground freight. This procedure will be performed regardless of the warranty status of your unit. We sincerely apologize for any inconvenience.

This form is to be used only for returning a Lunatec V3 to correct the ADC polarity issue.
