SPACEBAR

MODULAR MICROPHONE POSITIONING SYSTEM

GRACE DESIGN

Our Spacebar modular microphone positioners are designed to make any multi microphone setup simple and precise. Clearly engraved scales for angle and distance make setting capsule spacing, angle of incidence, and X axis rotation easy and repeatable.

The Spacebar modular system components can be purchased in pre-configured assemblies for several standard microphone arrays, or you may build a virtually limitless range of microphone holding structures to meet any need.

All components which feature microphone mounts come with American standard 5/8-27 threads, or can be ordered with European standard 3/8-16 Whitworth threads.

The Spacebar modular system components are precision fabricated from machined aircraft aluminum, brass, and stainless steel. They are light, strong, and if properly cared for will last a lifetime.

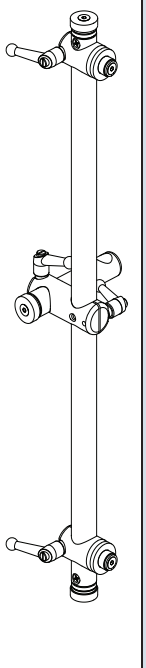
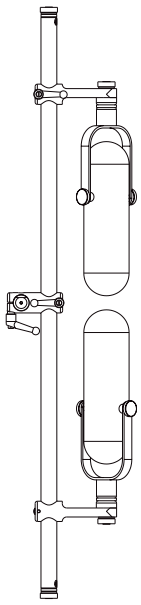
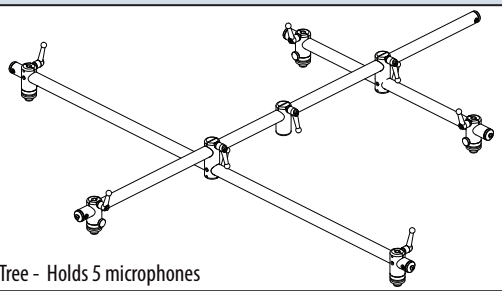
STANDARD PRE-CONFIGURED ARRAYS



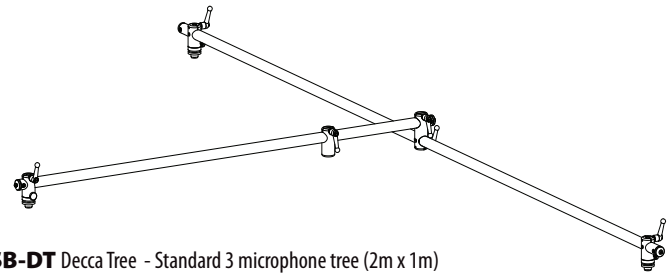
SB-BL
Holds standard large diaphragm microphones in a vertical Blumlien configuration (53cm)



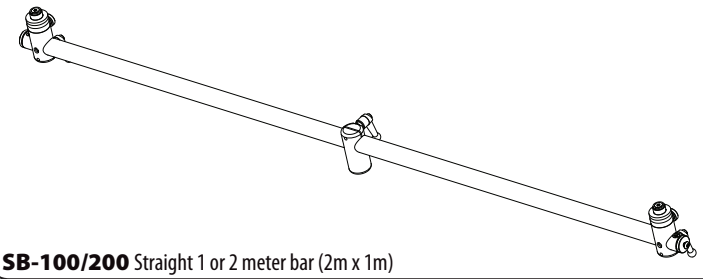
SB-BLRA
Holds RCA 44 type ribbon microphones in a vertical Blumlien configuration (80cm)



SB-SUR Surround Tree - Holds 5 microphones

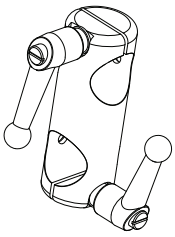


SB-DT Decca Tree - Standard 3 microphone tree (2m x 1m)

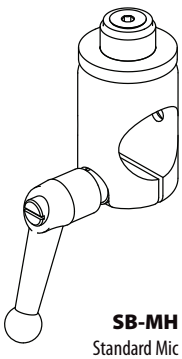


SB-100/200 Straight 1 or 2 meter bar (2m x 1m)

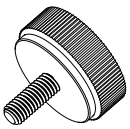
SPACEBAR MODULAR COMPONENTS



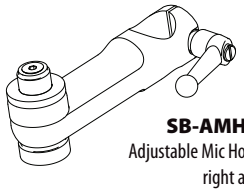
SB-TJ90
90 Degree Tube Joiner, allows any two 7/8" tubes to be joined at a 90 degree angle



SB-MH
Standard Mic Holder

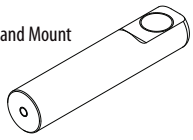


E405
42mm Thumb Nut w/ #10-32 x 7/8" screw

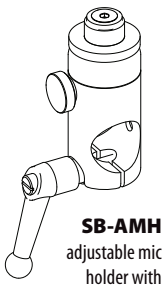


SB-AMHRA
Adjustable Mic Holder, right angle

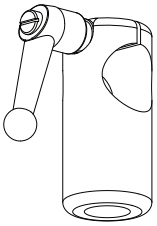
SB-HB
Hanging Bar



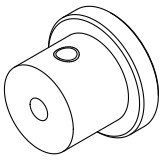
E422
90 Degree Stand Mount



SB-AMH
adjustable mic holder with precision angle scale. 5 degree markings from +90 to -90 degrees



SB-SMA
Stand Mount Adapter with 5/8"-27 thread. Comes with 3/8-16 European style thread adapter



E414
Tube End Plug - attaches to the end of any of the 7/8" tubes. Provides a threaded hole for attaching hooks for guide lines or an E414 24m thumb screw to provide a safety stop for microphone holders

E407 53cm bar
E421 80cm bar
E420 105cm bar

7/8" diameter, laser etched

E418
Tube Joiner - joins any two 7/8" tubes. Made from 304 stainless steel - very strong
